Construction News Flash

Edwards AFB Community Health Clinic

From the Office of Development Director
David C. Thompson II, 1st Lt, USAF, MSC
Marla D. Muse, MSgt, USAF, NCOIC
661-277-2622 / 661-277-4162

MILCON Progress

(Picture by MSgt Marla Muse)

- Completing steel decking for the roof in area 12 (SGSL Flight & PAS).

MILCON Progress

(Pictures by Greg French, Cox Construction)

- Continuing erection of structural steel high beams for areas 10 and 11.
- Continuing to work on underground utilities.

MILCON Progress

- There may be temporary utility outages due to placement of underground vaults and continued digging for underground utilities.
- A water outage has been scheduled for the clinic “campus” (including the MDG Dorms) next Wednesday, 26 Feb 03, from 1300-1700 hrs.

What’s Next?

- Pouring concrete floor for area 12. (Early March)
- The cement patient path installation was delayed two weeks due to the heavy rain last week.

Construction Safety

- **Next week, ongoing underground utility “tie-ins” will affect the road in front of the new clinic construction site. The road will remain open and traffic will be re-directed through this area. Please use caution when traversing this road.**

- **Welding on the columns, beams, and decking is ongoing…**

Thank you for your continued patience with our progress.
